

**SUMMER HOLIDAY HOMEWORK**  
**CLASS – I**  
**SESSION : 2022-23**

Children's world is full of ideas and imagination. Exposing children to inspirational and encouraging activities leaves a positive impact on their minds and moulds their behaviour in positive direction. Play time is precious as it builds brain pathways for thinking , creativity , flexibility , empathy and many other lifelong skills.

Keep your child's brain active over the break without them knowing they're doing "Homework" and give them time to explore ,think , create and touch the new horizons .

## Dear Parent

It is a major challenge for both parents and teachers to keep our children positively engaged and find meaningful and interesting activities that helps to build up a strong foundation of learning and gives them the opportunities to explore their immediate environment , develop logical reasoning, strengthen their hidden talents and learn by their own experiences and observations.

Here is a list of activities recommended for our young learners that will provide a good platform to explore new horizons.

- Follow a healthy daily routine.
- Follow a time-table . Fix study hours, playing time, reading time, activity time ,screen time etc .
- Meditate and do simple yoga and physical exercises .
- Water plants and feed the birds.
- Spend quality time with grandparents and other family members.
- Help your mother in the kitchen and do simple self - management activities like washing own handkerchief or an apron , setting up the dining table etc .
- Build and improve your vocabulary through crosswords jumbled words , solve riddles and word puzzles etc.
- Engage yourself in creative activities like, clay moulding , art & craft ,paper origami ,dress designing for dolls, singing, dancing ,drawing & colouring etc
