

# RMIT UNIVERSITY OF MELBOURNE

Under International Cultural Exchange Program our school participated in an interactive session organized by RMIT University of Melbourne, Australia.

There were series of lectures in engineering, business and designing. Students interacted with academics and alumni and learnt about career options, entry requirements, life at RMIT and scholarship opportunities.

Two students of our school won I pad air 2 and other participants were rewarded with a special kit by RMIT University having one speaker and a power bank.

I

It was a great learning experience. We are really thankful to the school authorities to provide us with such type of opportunity.
